

Shepell•fgi is unique. Our integrated delivery of services continues to redefine workplace health, and to impact the work experience for a better quality of life, making us an industry leader. Our continued growth has resulted in the following opportunity:

Counsellor – Yellowknife, NWT (full time)

Reporting to the Regional Clinical Manager, the incumbent mental health professional will use their proven short-term intervention skills, superior case management abilities and comprehensive knowledge of community resources as a Counsellor in Yellowknife, NWT.

In this exciting position, the counsellor will:

- Counsel individuals, couples, and families, presenting with a wide array of personal, family, and work-related issues
- Assess clients and jointly sets goals and establishes a strategy to meet those goals
- Refer clients to community resources or other external resources as part of the established plan and facilitate client contact with external resources
- Liaise closely with Regional Clinical Manager, and Clinical Services Administrators regarding EAP cases and related issues

Ideally counselors will possess a graduate degree (or greater) in mental health and have a minimum of 3-5 years of post-graduate clinical experience. Candidates' superior knowledge of short term counselling is enhanced by previous experience in EAP counselling, addiction assessment and/or trauma services. Experience working with First Nations/Aboriginals is an asset.

Shepell•fgi offers full time employees a competitive salary, an excellent benefits package, deferred profit sharing RRSP program, TFSA, various other incentives and training programs, and relocation reimbursement.

Interested applicants are encouraged to apply online at www.shepellfgi.com.

Closing date: Until a suitable applicant is found.
