

CAREER OPPORTUNITY

WHAT WE OFFER

STRONG TEAM CULTURE

Workplace culture and team connections are at the heart of our practice. We facilitate professional development opportunities, regular clinical consultation with peers, retreats and social events.

FULL ADMINISTRATIVE SUPPORT

Our administrative team provides full service client care and administrative support for our clinicians.

MARKETING & REFERRAL NETWORK

We have a professional online presence, a well-developed referral plan, and a large network of professional referral sources.

RELOCATION SUPPORT

We are able to offer strategic support and guidance for families interested in relocating to join our practice.

Join Our Team! Registered Psychologist Position Available

The Wishing Star Lapointe Developmental Clinic is one of the largest child-focused private practices providing counseling, assessment, and support services to children and their parents in the Lower Mainland. We are seeking a Registered Psychologist to join our thriving multi-disciplinary team environment. We are looking for a clinician who uses an integrative, developmentally-informed and family-centred approach to assessment and intervention with a broad range of ages and referral concerns.

We are seeking a Registered Psychologist (PhD level), and a member in good standing with the BC College of Psychologists (or eligible for registration). You should have experience working with children, adolescents and families, and proficiency in a range of therapeutic approaches (e.g., attachment-oriented, psychodynamic, CBT, DBT, etc.). We highly value the ability to work in a team environment and be a team player. Training and experience in psychoeducational and diagnostic assessments would be an asset.
